

## Superior 1050 Sport Sedan

*Coastal cruiser for families or the sport fisherman.*

Our stylish *Superior 1050* is now available in two models – the Sport Sedan and the Flybridge. Particularly popular for its modern looks, versatility and durability, this is the perfect gulf cruiser with ability for extended limits.

A number of different modifications have been made to improve the look and performance of this Superior craft. Having one of these boats to use for fishing, sport or family recreation is definitely something to aim for.

We've substantially updated many features with the 1050 in creating the *Sport Sedan* model such as seamless curved screens, larger, more modern dash, plus other subtle changes. As with all our boats though, we can modify different elements and tailor the craft to your own requirements.
